for machines, cranes, power-operated doors and technical plants ...

Mobile Milling Machine

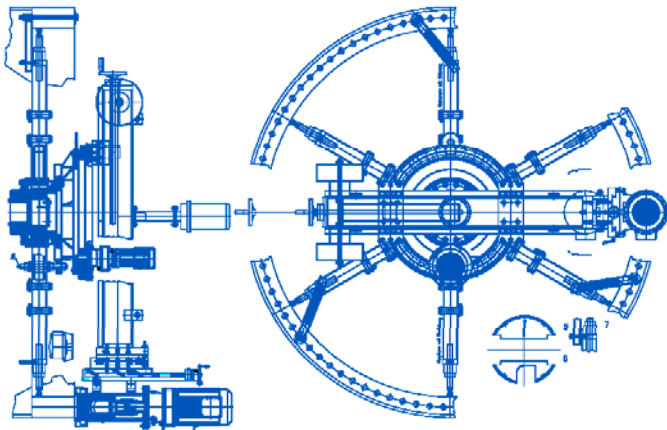

for the flange treatment from:

- Towers for wind power electric plants
- Tanks and equipment
- Mills and rotary kilns
- Pipelines ...

Parameter Mobile Milling Machine size 1

- Treatment diameter 1500-3000 mm
- Mass 1500 kg
- 45° Face mill, diameter 160 mm
- frequency controlled drives, speed and torque, depending on the technological requirements

Parameter Mobile Milling Machine size 2

- Treatment diameter 3000-4800 mm
- Mass 4500 kg
- 45° Face mill, diameter 250 mm
- frequency controlled drives, speed and torque, depending on the technological requirements

A flange treatment with a mobile milling machine requires a geometric measurement of the component. There must be a level on three points must be defined, by which the mobile milling unit is aligned.
